Subject and Author Index to Volume 24

Abstracts
  from American Society for Parenteral and Enteral Nutrition, 24th Congress of, S1 (Jan/Feb issue)
Acquired immunodeficiency syndrome
  hypermetabolism in, 317
  nutrition support in, 133
L-Alanine-L-glutamine effects in endotoxemia, 215
All-in-one TPN admixtures
  microbiological quality control of, 183
  trace elements of, 37
Amino acids, branched chain, L-alanine-L-glutamine effects in endotoxemia, 215
Antibiotics, central-venous-line infections, treatment/cost-effectiveness studies, 119
Arginine
  cytokine expression after burns and, 89
  nursing home residents' pressure ulcers and, 280

Bilirubin, feeding tube placement and, 187
Bioimpedence analysis, body composition variation analysis by, 52
Body composition, time-dependent variations in, 52
Body weight, time-dependent variations in, 52
Bone marrow transplantation
  foscarnet-induced electrolyte abnormalities in TPN during, 170
  glutamine supplementation during, 61
Burns, cytokine expression, arginine and, 89

Cancer. *See also* Gastrointestinal cancer; Head and neck cancer
  children with, standard *versus* high density tube feeding formulas, 351
cDNA microarray analysis of intestinal adaptation gene expression, 311
Central catheters
  displacement, pendulous breasts and, 251
  intravascular sepsis and, 210
  sleeve thrombus fibrosis, 180
Children
  with cancer, standard *versus* high density tube feeding formulas, 351
  cholestasis in long-term PN, lipid emulsions and, 345
  with congenital heart disease, thiamine deficiency in, 154
Ciprofloxacin concentrations after enteral nutrition admixtures, 42
Cirrhosis, substrate oxidation markers in, 150
Colonic flora composition, inflammatory bowel disease and, 189
Colorectal surgery, TPN and, 254 (Letter)
Congenital heart disease, thiamine deficiency in children with, 154
Contamination sources of enteral feedings, 296
Copper-free TPN, pancytopenia with, 361
Crohn's disease
  esophageal, 176
  glutamine and intestinal permeability in, 196 (Letter)
Cyclosporine A, postprandial metabolism and, 244
Cytokines
  arginine modulation of expression after burns of, 89
  hypermetabolism in AIDS and, 317

Dexamethasone, catabolic state in rats and, 30
Diet
  defined, bacterial translocation and, 56
  disease incidence and, 1
Dual x-ray absorptiometry, body composition variation analysis by, 52

Elderly
  with pressure ulcers, arginine and, 280
  with swallowing disorders, feeding tubes and, 97
Electrolyte disorders
  drug-induced during TPN, 174
  foscarnet and, 170
  renal failure and, 234
Endoscopic gastrostomy, percutaneous, for esophageal Crohn's disease, 176
Endotoxemia, L-alanine-L-glutamine effects in, 215
Energy expenditure, hypermetabolism in AIDS and, 317
Enteral nutrition
  closed containers, IV compatibility with, 369 (Letter)
  contamination sources, 296
  Electronic Parenteral and Enteral Nutrition software, 23
  for esophageal Crohn's disease, 176
  fluoroquinolone concentrations decreases in, 42
  gastric emptying in rats, 164
  glucose metabolism and, 255
  intestinal permeability after gastrointestinal surgery, 49 (Letter), 50 (Letter reply)
  keratinocyte growth factor during, 67
Enteric flora composition, inflammatory bowel disease and, 189
Evidence-based medicine, 5

Fatty acids, polyunsaturated, immunity and, 113
Feeding tubes
  magnetic-tipped, transpyloric placement of, 304
  nasojejunal, spontaneous transpyloric migration, 240
  placement predictors, 187
  small-bore nasogastric, gastroesophageal reflux and, 103
Fish oil, macrophage P44/P42 mitogen-activated protein kinase modulation and, 159
Fluoroquinolone concentrations after enteral nutrition admixtures, 42
Foscarnet, electrolyte abnormalities in TPN and, 170

Gastric emptying in rats, 164
Gastroesophageal reflux, mechanical ventilation with small-bore nasogastric tubes and, 103
Gastrointestinal cancer
  immunonutrition analysis, 367 (Letter), 367 (Letter reply)
  perioperative TPN and, 7
  tumor recurrence after rhGH treatment, 140
Gastrointestinal surgery, enteral permeability after, 49 (Letter), 50 (Letter reply)
Gene expression in intestinal adaptation, 311
Genistein, bacterial translocation and, 56
Glucose metabolism, TPN/TEN and, 255
b-Glucuronidase activity, intestinal, 308
Glutamine
  bone marrow transplantation and, 61
  Crohn's disease and, 196 (Letter)
  dexamethasone-induced catabolic state in rats and, 30
  TPN enrichment by, 270
Glutathione, enzyme messenger RNAs in rat intestine and, 67
Growth hormone, recombinant human, tumor recurrence after treatment with, 140
Gut-associated lymphoid tissue, neuropeptide regulation of, 261

Head and neck cancer, survival prediction, 329
Head injuries, severe, early *versus* delayed feeding with, 145
HIV wasting. *See also* Acquired immunodeficiency syndrome
  nutrition support in, 133
Home parenteral nutrition, brain manganese deposition and blood levels in, 223
Hospitals
  enteral feeding contamination sources, 296
  overall costs to charge ratios for, 328
Human leukocyte antigen-DR (HLA-DR), survival prediction in head and neck cancer and, 329

Immunity
  medium-chain triglycerides emulsions and, 228
  polyunsaturated fatty acids and, 113
Immunoglobulin A, mucosal, glutamine-enriched TPN and, 270
Immunosuppression, postprandial metabolism and, 244
Infections, central-venous-line
  antibiotics studies, 119
  diagnosis, 210
Inflammatory bowel disease, colonic flora composition and, 189
Insulin-like growth factor binding protein-5 mRNA expression, TPN and, 288
Interleukin-4, intestinal, glutamine-enriched TPN and, 270
Interleukin-6, survival prediction in head and neck cancer and, 329
Intestinal adaptation, postresection
  gene expression analysis, 311
  malnutrition and, 76
  vitamin A modulation, 81
Intestinal mucosa, intralipid-based short-term TPN and, 337

Subject and Author Index to Volume 24

Intestinal adaptation, postresection
  gene expression analysis, 311
  malnutrition and, 76
  vitamin A modulation, 81
Intestinal mucosa, intralipid-based short-term TPN and, 337

Intestinal permeability
after gastrointestinal surgery, 49 (Letter), 50 (Letter reply)
in Crohn's disease, glutamine and, 196 (Letter)
Intestine. *See* Jejunum
Isoflavones, bacterial translocation and, 56
IV administration, closed enteral nutrition containers and, 369 (Letter)

Jejunum, IGFBP-5 mRNA expression in, 288

Keratinocyte growth factor, glutathione-related enzyme messenger RNAs in rat intestine and, 67

Levofloxacin concentrations after enteral nutrition admixtures, 42
Liver disease, lipid emulsions and long-term pediatric PN, 345
Lymphoid tissue, gut-associated, neuropeptide regulation of, 261

Magnetic-tipped feeding tubes, transpyloric placement of, 304
Malnutrition
after bariatric surgery, 126
CD11b/CD18 expression and, 276
of head and neck cancer patients, 329
perioperative TPN, 7
postresection intestinal adaptation and, 76
substrate oxidation markers in cirrhosis, 150
Managed care
nutrition support in, 328
termination costs of nutrition support nurses, 323
Manganese in brain and blood, HPN and, 223
Mitogen-activated protein kinase cascade, fish oil modulation of, 159

Nasojejunal tubes, spontaneous transpyloric migration study, 240
Neuropeptides, gut-associated lymphoid tissue regulation by, 261
Neutrophil b_2 integrins, medium-chain triglycerides emulsions and, 228
Nitrogen metabolism, from ammonium to dipeptides, 197
Nurses, nutrition support, termination costs of, 323
Nursing home residents
with pressure ulcers, arginine and, 280
with swallowing disorders, feeding tubes and, 97
Nutrition support. *See also* Enteral nutrition; Home parenteral nutrition; Parenteral nutrition; Total parenteral nutrition (TPN)
after bariatric surgery, 126
in AIDS, 133
data interpretation, 254 (Letter)
early *versus* delayed with severe head injuries, 145
Electronic Parenteral and Enteral Nutrition software, 23
future trends for, 1
hospitals' overall costs to charge ratios and, 328
immunonutrition analysis, 367 (Letter), 367 (Letter reply)
nitrogen metabolism, 197
nurses, termination costs of, 323

Obesity
central catheter displacement and, 251
malnutrition after bariatric surgery, 126
Ofloxacin concentrations after enteral nutrition admixtures, 42
Olive oil, immune function and, 113
Oxygen radicals production, fat emulsions and, 107

Pancytopenia, copper-free TPN with, 361
Parenteral nutrition
Electronic Parenteral and Enteral Nutrition software, 23
IGFBP-5 mRNA expression, 288
long-term pediatric, lipid emulsions and cholestasis in, 345
renal failure and, 234
Peritonitis, malnutrition and, 276
pH, feeding tube placement and, 187
Phytochemicals, intestinal conjugation of, 308
Polymorphonuclear neutrophils, peritonitis, CD11b/CD18 expression and, 276
